Some States/Provinces do not allow the exclusion or limitation of incidental or consequential damages or limitations on how long an implied warranty lasts, so the above limitations may not apply to you. This warranty gives you specific legal rights and you may also have other rights which vary from State/Province to State/Province.

The following terms and conditions apply:

1. The warranty coverage is limited to the owner of the property at the time of installation.
2. CPFilms Inc. as the window film manufacturer will not be liable under any circumstances for any damages occurring as a direct or indirect result of causes not specifically covered or for any indirect, incidental or consequential damages.
3. Pre-existing conditions of either glass breakage or seal failure of the filmed lite voids this warranty coverage. CPFilms Inc. reserves the right to inspect any job prior to final issuance of a certificate of warranty coverage. Fraud by the installing dealer or warrantee shall void the warranty.
4. In order to qualify for seal failure coverage, the owner must present evidence that a seal failure warranty is currently in force from the manufacturer of the sealed glass unit. This warranty for seal failure will not extend beyond the sealed unit's manufacturer's limited warranty.
5. The warranty shall be completely invalidated if any information or representation set forth on the front of this form is not accurate.
6. CPFilms Inc. reserves the right to refuse to reapply window film after two (2) occurrences to the same lite and will refund the consumer's money for the original filming of said lite.
7. Seal failure is defined as a visible break or opening of the window's air seal, resulting in an ineffective sealing of the window, allowing moisture and/or air to penetrate, causing an internal fogging of the glass.
8. This limited warranty shall NOT apply to applications in the following installations: (a) when not in strict compliance with current rules and regulations promulgated by the manufacturer; or (b) of more than one (1) film to any window; or (c) on triple pane windows, wired or textured glass, any glass on which there is affixed or otherwise applied any paint, lettering or ornamentation; or (d) on glass which is visibly damaged, chipped, cracked or pierced or where light can be seen between glass and frame; or (e) on nonglass materials, such as polycarbonates or other plastics; or (f) in locations in which there has been prior glass breakage; or (g) on glass which is framed by concrete, solid metal or sealant which is no longer resilient; or (h) on any glass of 100 square feet or more or having any linear dimension of more than 12 feet; or (i) when damage occurs partly by reason of loss by any cause other than thermal shock fracture, including, but not limited to, impact, stress, scratching, improper application or installation, wind or the elements, earthquakes or other acts of God, fire, war, invasion, hostilities, rebellion, insurrection, wear and tear, inherent vice, pre-existing break, or latent defect; or (j) when 25% or less of a glass lite is shaded and the shaded area includes more than 25% of the lite's perimeter.
